

PRESS RELEASE January 22nd 2004

OEM appoint new leader for group Electronic Production

Mattias Franzén will take over responsibility for the OEM company group Electronic Production. Mattias is today managing director at IBS Internordic Bearing AB, a company in group Mechanics. He will enter upon his new position on May 1st 2004

Mattias Franzén is 35 years old and has been employed in the OEM Group for 3 years. His present position is managing director at IBS Internordic Bearing Sweden AB since March 2001. He has an earlier background as salesman and managing director for the USA based company Primus-Sievert. The recruitment work to find a new MD for IBS Internordic Bearing will start promptly.

Group Electronic Production is comprised of four Cyncrona companies in the Nordic countries and Jubo Mechatronics AB. The Cyncrona companies sell production equipment, support and materials for electronics production and test equipment for circuit boards, microelectronics and PCBs. Jubo Mechatronics develops and manufactures production equipment for the electronic, medical and light workshop industries.

Tranås the 22nd of January 2004
