Enea

Using our more than 35 years of experience in systems development and knowledge of real-time technology, we assist our customers in Sweden and the rest of the world to build advanced systems where quality, high availability and usability are decisive. We share the knowledge we have gained with our customers through our products, services and training courses.

With the support of the real-time technologies we have developed ourselves, we have assisted many customers in making their ideas a reality in a way that is assured and cost-efficient.

Enea's world leading real-time operating system OSE is used for many products from datacom and telecom suppliers.

Within the Nordic region, Enea offers services, training and systems solutions for business support to companies, organizations and government agencies whose demands on usability and reliability are exceptionally high.

The group comprises 550 employees and has offices in Sweden, USA, Germany, France, the UK, and Japan. Enea's head office is located in Täby, Sweden.

Enea Data AB's stock is listed on the Stockholm Stock Exchange's Attract-40-list.
