

FOR IMMEDIATE RELEASE March 19, 2004

# TELE2 ISSUES FINANCIAL INFORMATION ACCORDING TO ITS NEW MARKET AREA STRUCTURE

New York and Stockholm – Tele2 AB, ("Tele2"), (Nasdaq Stock Market: TLTOA and TLTOB and Stockholmsbörsen: TEL2A and TEL2B), the leading alternative pan-European telecommunications company, today issues financial information for the past six quarters, further to its previously communicated intention to provide financial information according to its new market area structure. The information includes net customer intake, revenue, EBITDA, EBIT and investments.

The new structure, announced in September 2003, was effective January 1, 2004. Tele2 will release its financial and operating results for the first quarter 2004 on April 21, 2004.

For full details and information regarding Tele2's results, please refer to the fourth quarter and full year financial report for 2003, released on February 9, 2004.

Tele2 AB, formed in 1993, is the leading profitable alternative pan-European telecommunications company offering fixed and mobile telephony, data network and Internet services under the brands Tele2, Tango and Comviq to 22.3 million people in 23 countries. Tele2 operates Datametrix, which specializes in systems integration, 3C Communications, providing integrated credit card processing, web payment solutions and public payphones; Transac, providing billing and transaction processing service; C³, offering co-branded pre-paid calling cards and Optimal Telecom, the price-guaranteed residential router device. The Group offers cable television services and, together with MTG, owns the Internet portal Everyday.com. The Company is listed on the Stockholmsbörsen, under TEL2A and TEL2B, and on the Nasdaq Stock Market under TLTOA and TLTOB.

#### Note 1 Number of customers in Denmark

In Denmark, the reported number of active customers was from quarter 4, 2002 fully adopted to Group definitions. As a result of this and as a one time effect, the number of fixed and Internet customers was adjusted by -461,000 in Q4 2002.

#### Note 2 Adjustment: Operating revenue

Revenue from mobile telephony is shown as calls are made, which means that sold but not yet used prepaid cards should not be included in revenues. To estimate this, revenues in Sweden have been recognized according to a model that has been used unchanged since the start of Tele2's prepaid telephony in 1997, rather than a system to measure the value of sold but not used prepaid cards. In the latter part of 2003, Comviq brought such a system into use, and it was established that sold but not used prepaid cards have been undervalued by around MSEK –374 in total for the period 1997 through 30 September, 2003, of which MSEK –95 is estimated to have occurred in 2003.

In the first quarter of 2002 Tele2 won a case in the Administrative Court against Telia regarding payment principles for interconnection. The decision was that Telia is liable for payments regarding traffic transited via their network ("Cascade Accounting") at certain tariffs rates. Consequently an amount of approximately MSEK 150 and MSEK 87 is included in operating revenue for mobile telephony in Sweden in the first and second quarter of 2002, respectively. The claim is hereby fully recorded at June 30, 2002. On June 26, 2003, the Administrative Court of Appeal in a final decision made Telia responsible for payment.

#### Note 3 Adjustment: Operating expenses

As a result of valuation of loss-carry-forwards for some companies in Continental Europe to their full value in Q4 2003, the part of loss carry-forwards that existed when Tele2 acquired SEC and that could have reduced goodwill by MSEK –322, is accounted for as a writedown according to the Swedish Financial Accounting Standards Council's recommendation RR9-Income taxes.

A writedown on fixed assets to a total value of MSEK –225 was made in Q4 2003. The largest element, MSEK –175, relates to the depreciation of an Atlantic undersea cable that Tele2 invested in during the latter part of the 1990's, and is a result of Tele2's assessment of continued overcapacity.

During Q4 2002, Tele2 Norway returned its UMTS licence. The net book value of these capitalized costs was eliminated in its entirety and MSEK -400 was charged against depreciation in the fourth quarter 2002.
