

PRESS RELEASE

PANASONIC INTRODUCES BLUETOOTH HEADSET – BHX70

6 July 2004, Panasonic Mobile Communications Co., Ltd., today introduces its Bluetooth headset, perfect for use with the digital camera phone, the X70. Compatible with any device that supports Bluetooth® wireless technology, the BHX70 gives users the freedom to safely and conveniently manage voice calls whilst on the move. The BHX70 is also customisable with a choice of three replaceable covers (orange, silver and dark blue).

The BHX70 supports Bluetooth 1.1 and is activated and managed via the central control button, allowing the user to answer/end phone calls, voice dial, redial and power on and off.

The BHX70 is designed to stay out of sight by fitting around the users' ear. The headset is small and lightweight as it measures 57x36x30mm (hwxwd) and weighs in at 23 grams. It is also reversible, allowing users to wear the headset on either ear.

Prior to use, the BHX70 has to be 'paired' to allow it to be securely linked to the X70 or another compatible device. Conveniently, it can also be charged using an X70 charger.

Summary Panasonic BH X70

Bluetooth 1.1

Weight 23g

Height 57mm

Width 36mm
