Song Networks engaged by TDC as a subcontractor for IP VPN

Song Networks Svenska AB, a subsidiary of Song Networks Holding AB (Stockholmsbörsen: SONW), has signed an agreement concerning supply of data communications for TDC Business, which is responsible for the IT company CSC's Nordic data and telecom services.

The IT company CSC has outsourced its Nordic data and telecom services to operator TDC Business. The agreement involves supply of data communications from Song Networks, which is a subcontractor to TDC Business.

"CSC is a good example of a pan-Nordic customer that sets high demands on a joint Nordic communications solution. It was important for TDC Business to obtain this agreement, which puts our Nordic focus and our ownership of Song Networks into the correct perspective," says Peter Stig Andersen, Sales Director of TDC Business.

The agreement between Song and TDC covers the supply of IP VPN in the Nordic region at speeds from 256 Kbit/s up to 155 Mbit/s.

"The Song and TDC networks complement each other very well. In this deal where TDC is engaging Song as a subcontractor we are utilising the best from our two networks and organisations, and offer the customer an unbeatable solution," says Mats Almgren, Sales and Marketing Director of Song Networks Svenska AB.

About Song Networks, (Stockholmsbörsen: SONW)

Song Networks is a leading Nordic telecom operator. Based on its own infrastructure, Song Networks offers a wide range of data communication and telephony services within Sweden, Finland, Norway and Denmark. The company possesses leading-edge expertise within data communications, and focuses on delivering IP VPN and Internet Access services to business customers. Song Networks is a stable challenger of the former state-owned operators. Business customers are connected at competitive prices to the Group's DSL and fiber network, which offers high capacity and the best coverage in the Nordic region. Song Networks' main competitive advantage is the ability to offer efficient and technically advanced communications solutions in combination with a personal reception and top-quality customer service. The company was founded in 1995 and has approximately 860 employees. The head office is located Stockholm and the company has 23 offices located in the Nordic region.
