

Press release
December 6, 2004

Song Networks becomes TDC Song

As a small but not insignificant step in the process of integrating Song and TDC, the new name for Song Networks has been decided. It will be TDC Song.

In November 2004, TDC, Denmark's leading telecommunications company, acquired Song Networks with the ambition to become the leading supplier of IP-based communications solutions to the Nordic business customers.

"The name change is a natural part of the integration process and reinforces the Song brand by combining it with the power of TDC. By keeping Song in the name we capitalize on the strong brand awareness of Song in Sweden, Finland and Norway. And since we maintain the focus of delivering Nordic IP-based communication solutions, it is important that customers all over the Nordics will recognize the new name," says Mats Lundqvist, CEO, Song Networks.

The new name will be implemented during the first quarter of 2005 together with a new logotype and a new brand platform. During the implementation phase, and until the new logotype and design guide has been implemented, Song will continue to work under the Song Networks brand.

About Song Networks, (Stockholmsbörsen: SONW)

Song Networks is a Nordic data and telecom operator. Since the fall of 2004, Song is a subsidiary to TDC, Denmark's leading telecommunications company with an annual revenue of approximately DKK 50 billion (2003). Song offers business critical communications solutions to corporate customers based on its own infrastructure in Sweden, Finland, Norway and Denmark. The leading-edge expertise is found within IP VPN and Internet Access. Business customers are connected at competitive prices to the Group's DSL and fiber network, which offers high capacity and the best coverage in the Nordic region. Song was founded in 1995 and has approximately 860 employees located on 22 offices in the Nordics with headquarter in Stockholm. www.songnetworks.net

Certain statements contained in this press release contain "forward-looking statements" within the meaning of the U.S. federal securities law. Such statements are based on the current expectations of the management of Song Networks Holding AB only, and performance is subject to risks, uncertainties and other factors that could cause actual results to differ materially from these statements. Such risks include, but are not limited to, adverse regulatory, technological or competitive developments; decline in demand for the company's services or products; inability to timely develop, introduce and market new technologies, products and services; pricing pressures resulting from competition; unforeseen construction delays; and the inability to successfully manage systems failures or shutdowns and service interruptions or reduced services to customers.
