

“Secured eMail nominated for Best Email Security Solution 2005”

Secured eMail has been selected as a Reader Trust Award "Finalist" in the category of Best Email Security Solution by *SC Magazine* for the SC Global Awards 2005. The SC Awards are the Oscars of the IT world and other attendees include Computer Associates, Novell, McAfee and Symantec.

SC Magazine is the longest running information security magazine in the world with the widest distribution. It is read by decision makers and IT professionals in over 50 countries worldwide.

“We are thrilled to receive this nomination” says Rami Avidan, COO of Secured eMail AB “It is recognition of the quality and efficiency of our software. We are pleased that the world is finally recognizing that email security is a serious issue”

The winners will be announced at the SC Global Awards dinner and presentation during the RSA Conference on February 16, 2005 at the Moscone Center in San Francisco.
