Celsius:

Successful Test Firing of BAMSE Air Defence Missile System

On Thursday Celsius' business unit, Bofors Missiles, performed a live firing with an RBS 23 BAMSE missile at FMV's (Swedish Defence Materiel Administration) missile test site in the north of Sweden.

– The firing was 100% successful and provides further confirmation of the excellent high performance of the BAMSE system, as well as the capability of Bofors Missiles in the high technology missile sector, said Håkan Littorin, President of Bofors Missiles.
