

## **PRESS RELEASE**

### **Dangaard Telecom will be the first to distribute the Nokia 330 Auto Navigation**

**Dangaard Telecom, one of the world leading distributors of mobile phones, will be the first to distribute the Nokia 330 Auto Navigation.**

The Nokia 330 Auto Navigation is a personal navigation device with a 2GB memory card containing Europe-wide maps and a built-in GPS receiver. The user will follow directions from the large 3.5 inch colour screen, where instructions can be tailored after preference with adjustable 2D/3D, day or night view, language or volume.

Great expertise and experience

Dangaard Telecom has developed a number of advanced services within mobile telephony and logistics, and has through this managed to position itself as a value adding link between the other players in the telecommunication market. Dangaard Telecom has through its extensive representation in 15 countries, a wide access to the telecommunication and navigation market, and great expertise and experience in handling advanced mobile products.

An active and decisive role

"We see this opportunity to distribute the Nokia 330 Auto Navigation as a very positive next step in our long-term cooperation with Nokia. In all countries, we have highly skilled employees within Mobile Navigation Solutions waiting to fulfil every need our customers may have," says Operation and Marketing Director Europe, Mobile Enhancement, Martin Haugaard Petersen, Dangaard Telecom.
