### **Large order for MultiQ**

The positive developments of the autumn with a number of large contracts continue for the flat screen manufacturer, MultiQ.

This afternoon an agreement was signed for the delivery of more than 5000 flat screens. One of MultiQ's largest single orders to date is now confirmed.

The deal is for 15" flat screens from the company's new product family. After careful consideration, the customer chose MultiQ as their supplier. The requirements specified which were crucial to the decision to choose MultiQ's screens included ergonomics, design, installation, reliability and high level of service.

MultiQ's MD, Thomas Keifer, comments on the order:

- The order says a lot about the quality of MultiQ's total offer. The customer, who wishes to remain anonymous at present, has business activities in which the screens will be seen by many people.

The screens that will be delivered starting in the fourth quarter of 2006 are the MQ215 model, i.e. MultiQ's 15" screen from the new product family.
