### **Skanska sells ongoing office project in Copenhagen to Norrporten**

Skanska is selling the ongoing office project Havneholmen Tower in Copenhagen. The buyer is Fastighetsaktiebolaget Norrporten, which will take possession of the property in January 2011.

Skanska is responsible for leasing of the project until the end of June 2014. The project was started in the first quarter of 2008 and no leases have been signed yet, but negotiations are in progress with several potential tenants. The final development gain depends on the success of the leasing activity and will be reported on a quarterly basis as the project is completed and leases are signed.

Havneholmen Tower comprises 18,500 square meters of office space and Skanska's investment is DKK 530 M, about SEK 650 M.

"I am pleased to say that the property's quality and location correspond well with our business concept and development strategy in Copenhagen," says Anders Wiklander, President of Norrporten.

Tower is the second Skanska development project in Havneholmen to be acquired by Norrporten. Norrporten recently took possession of Skanska's most recent project, Havneholmen Atrium, which has just been completed and is fully leased. Tenants include Handelsbanken and BDO Revision. Skanska holds building rights for approximately 40,000 additional square meters of property in the area, of which the next stage planned comprises about 15,000 square meters.

"We have noted a continued favorable demand for modern, flexible office projects in prime locations in the Öresund region," says Richard Hultin, President of Skanska Öresund.

Havneholmen Tower was designed by Gert Wingårdh Arkitekter and construction is carried out by Pihl A/S.

Skanska Commercial Development Nordic initiates and develops property projects within offices, logistics centers and retail warehouses. Office operations focus on the three large metropolitan regions in Sweden, the

Copenhagen region in Denmark and Helsinki, Finland. The development of logistics centers and volume retail properties is conducted in strategic locations in Sweden, Denmark and Finland.

Skanska Commercial Development Nordic is divided into three regional companies: Gothenburg, Stockholm and Öresund.
