Real estate company renews broadband contract with Thalamus

Half of real estate company ebo's tenants are connected to Thalamus' broadband - the highest penetration in Sweden. ebo has now renewed their contract with Thalamus Networks for another three years.

ebo was one of the first real estate companies to offer their tenants true broadband. Half of the 1000 apartments are connected via Thalamus Networks' broadband - probably setting a record in Sweden.

- The extension of the agreement with ebo shows us that quality pays off, says Jan Tidelius, CEO of Thalamus Networks.

Tidelius says that the agreement reveals how important it is to have a strong and constructive relationship between property owners and broadband suppliers.

- We will continue to take responsibility for the end users' security and freedom of choice when it comes to our broadband services, says Jan Tidelius.

ebo is very pleased with their cooperation with Thalamus:

- Now that we entrust Thalamus with this task for yet another period, we will strengthen our relationship, says Fredrik Hjorth, CEO for ebo.

Thalamus Networks AB (www.thalamus.se) is the only operator that can offer a complete portfolio of services for intelligent living. Apart from Internet access, Thalamus also offers energy management, information, media and telephony. Thalamus® is provided over optical fibre, cable-TV and Ethernet (LAN). Thalamus Networks is listed on the OM Stockholm Stock Exchange's O-list. The Company built Sweden's first commercial high speed property net, combined with control and communications services for landlords. The Company is expanding rapidly and has offices in Ängelholm, Malmö, Halmstad, Gothenburg and Stockholm. ThNet sales are approximately 40 MSEK a year with 40 employees.
