

GLOBAL OPERATOR SELECTS SYMSOFT'S NOBILL[®] CHARGING SYSTEM IN LATIN AMERICA

Stockholm, Sweden – August 13, 2008: **Symsoft, a leading supplier of real-time charging and VAS solutions, today announced the order of a Nobill Charging system to one of the major global operators in Latin America.**

Symsoft will deliver a system with comprehensive charging capabilities to increase revenues from new market segments. The deal is a great break-through for Symsoft, adding another important operator among its customers on the Latin American market and opens up great opportunities for future growth. The charging system will be delivered during 2008.

Mr. Mikael Calais, General Manager for Symsoft Americas Inc. says, "*We have been chosen as a reliable partner that can deliver a highly sophisticated and effective solution, rapidly and reliably. Our solution will help the operator to act more flexibly and with speediness on their market. Thanks to this new order, we increase our presence to further strengthen our customer relationships in the region.*"

About Symsoft

Symsoft develops leading solutions for the service layer network, such as real-time charging, messaging and IP services. Open architecture combined with innovative technology yields short lead times. Founded in 1989 and based in Stockholm, Sweden, Symsoft has operational systems in more than 30 countries. For more information about Symsoft, visit www.symsoft.com
