Group strategy

DnB NOR has the largest customer base in the Norwegian financial market and is a leader in most market segments. This market position provides a sound basis for generating further growth by developing and strengthening customer relationships. The business idea reflects DnB NOR's ambitions:

DnB NOR will be customers' best financial partner and will meet their needs for financial solutions. DnB NOR's strengths are a local presence and a full range of services.

Important aspects of DnB NOR's strategy are to give improved advisory services, make decisions as close as possible to the customer and further develop service concepts and a product range well-adapted to meet individual customer needs. DnB NOR's business areas cooperate closely to offer solutions that bring convenience to the everyday lives of customers.

In addition to the Group's strong posisiton in Norway, DnB NOR will further develop the presence in markets outside Norway and increase the share of income from international activities. The Group's international growth will be based on comparative advantages in the form of either competence within various customer segments and industries, special product expertise or established relationships where it is logical to accompany customers expanding outside Norway. DnB NOR is the preferred partner for international customers doing business in Norway.

A common value base and culture are prerequisites for creating a uniform DnB NOR image in the market. The Group's shared values, team spirit, simplicity and value creation, describe what should distinguish the organisation and work processes both internally and in relation to customers. Both internal and external communication should be open, honest and easy to understand.

The financial targets reflect the aim to create shareholder value. The Group seeks to achieve a return on equity and share price increases that are competitive in a Nordic context. The specific long-term targets are:

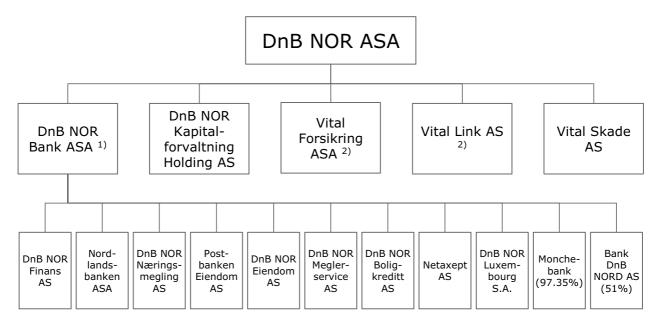

- The return on equity should be above 15 per cent.
- The cost/income ratio should be below 50 per cent by 2008.
- The Group's equity will be structured to ensure that core capital excluding hybrid securities in the long term exceeds the minimum legal requirements by a capital buffer linked to the Group's model for measuring risk-adjusted capital. The capitalisation target corresponds to a core capital ratio of approximately 6.5 per cent as at 31 December 2006.
- Approximately 50 per cent of annual profits should be distributed as dividends, provided that capital adequacy remains at a satisfactory level.
- DnB NOR Bank ASA's ratings for ordinary long-term debt should be maintained at an Aa level according to Moody's rating.

Legal structure

In accordance with the requirements of the Norwegian regulatory authorities, the banking, asset management and life insurance activities of the DnB NOR Group are organised in separate limited companies under the holding company DnB NOR ASA. Banking activities are organised in DnB NOR Bank ASA. All asset management activities are organised under a common holding company, DnB NOR Kapitalforvaltning Holding AS. Life insurance activities in the form of traditional life and pension products were in 2006 carried out by Vital Forsikring ASA, while unit linked products were offered through Vital Link AS. Vital Forsikring ASA and Vital Link AS merged in February 2007. Vital Skade AS offers non-life insurance as part of a total product package for retail and corporate clients and operates as an agent for domestic and foreign insurance underwriters. The chart below shows the legal structure of the DnB NOR Group at end-December 2006.

DnB NOR Group - legal structure at end-December 2006

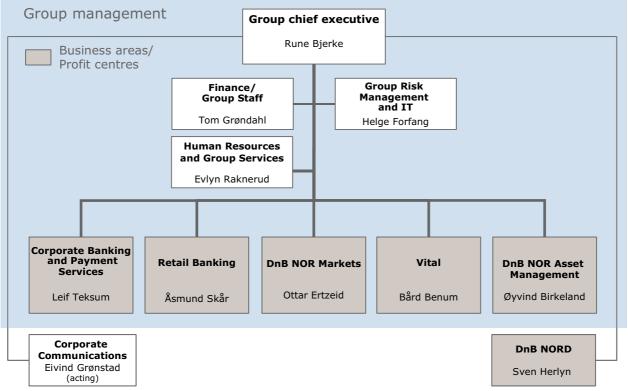

- 1) Major subsidiaries only. Ownership 100 per cent unless otherwise indicated.
- 2) Vital Link AS merged with Vital Forsikring ASA in February 2007.

Group business structure

The operational structure of DnB NOR includes five business areas and four staff and support units. In addition DnB NORD, which was incorporated in the Group from year-end 2005, is reported as a separate profit centre. As independent profit centres, the business areas carry responsibility for customer segments served by the Group, as well as the products offered. The operational structure of DnB NOR deviates from its legal structure as activities in subsidiaries fall in under the business area relevant to the company's operations.

DnB NOR Group - organisation chart as at 1 January 2007 1)

1) Reporting structure.

The business areas carry responsibility for customer relationships and for serving specific customer segments, as well as for key distribution channels for the sale of customer products and for ensuring that the Group's products are adapted to market requirements. Responsibilities include marketing, customer service, distribution and risk assessment in addition to product development, production and product pricing. The business areas are also responsible for the most business-critical support functions and have the opportunity to influence other staff and support units in the Group by changing their demand pattern and levels of ambition.

Cooperation between the business areas is an important element in DnB NOR's strategy. A wide range of products, services and distribution channels enables the Group to offer customer solutions across business areas.

Accounting principles

The accounts have been prepared according to IFRS principles, including IAS 34 - Interim Financial Reporting. All figures presented are based on such principles, except where explicitly stated otherwise. A description of accounting principles applied by the Group in preparing the accounts is found in the annual report for 2005, except for financial guarantee contracts issued.

In the fourth quarter of 2006 the DnB NOR Group implemented IAS 39 - Financial Guarantee Contracts with effect from 1 January 2006. Under the new principles financial guarantee contracts issued are initially recorded in the balance sheet at fair value and subsequently at the highest of fair value adjusted for any cumulative amortisation of commissions or the implicit liability in the contract. Except for individually identified impaired commitments, any changes in the value of financial guarantee contracts issued including amortisation of commissions are recorded as "Net gains on financial instruments at fair value". Changes in the value of financial guarantee contracts issued included in individually identified impaired commitments are recorded under "Write-downs on loans and guarantees". The fair values of financial guarantee contracts issued are recorded under "Provisions" in the balance sheet. See below for the effect on previously presented accounting figures.

Comparable figures have not been restated for the establishment of DnB NORD and purchase of Monchebank, see description on pages 75-77 and page 48, respectively.

Changes in accounting figures previously presented

The new principles for financial guarantee contracts implied certain reclassifications in the profit and loss accounts and balance sheets. The accounts for previous periods have been adjusted accordingly. The effects of changes in figures presented earlier are shown in the tables below.

¹⁾ The group implemented amendments to IAS 39 regarding financial guarantee contracts issued as from 1 January 2006. In accordance with the new principles group write-downs on guarantees have been reclassified from write-downs on loans and guarantees to net gains on financial instruments at fair value. Accounting figures for previous periods have been restated, see section 1 under Accounting principles.

Kredittilsynet has not adapted Norwegian capital adequacy regulations to IFRS. For the time being, capital adequacy calculations are based on special
consolidation rules for statutory accounts, which thus far are not allowed to be stated according to IFRS. As from 1 January 2006 new regulations on
the accounting treatment of loans and guarantees were implemented in the accounts for DnB NOR Bank and DnB NOR Bank Group. This led to a
slight increase in capital adequacy ratios.

²⁾ Perpetual subordinated loan capital securities can represent up to 15 per cent of core capital. The excess will qualify as perpetual supplementary capital.

³⁾ Calculations of capital adequacy include a total of NOK 744 million in subordinated loan capital in associated companies, in addition to subordinated loan capital in the Group's balance sheet.

⁴⁾ Upon implementation of NRS 6A (IAS 19) in 2005, unrecognised actuarial gains/losses for pension commitments were charged to equity in the accounts. The Ministry of Finance has established a transitional rule whereby three-fifths of the amount recorded against equity can be included in capital adequacy calculations as at 31 December 2006. This effect will be reduced by one-fifth yearly.

⁵⁾ Primary capital and nominal amounts used in calculating risk-weighted volume deviate from figures in the DnB NOR Group's accounts as a different consolidation method ("pro rata consolidation") is used in calculating capital adequacy in relation to associated companies.

⁶⁾ In connection with DnB NOR's repurchase of own shares, and in accordance with an agreement with the Norwegian Government, represented by the Ministry of Trade and Industry, a proportional share of government holdings has been redeemed to ensure that the government's percentage of ownership in DnB NOR is maintained at 34 per cent.

Taxes

The DnB NOR Group's total tax charge for 2006 was NOK 2 881 million, representing 19.6 per cent of pre-tax operating profits. The low tax charge primarily reflected taxation rules for capital gains on equities. In 2005, the tax charge was NOK 2 965 million or 22.6 per cent of pre-tax operating profits. The DnB NOR Group anticipates a future normalised tax level of 23 per cent.

Section 3

DnB NOR Group - business areas

Business areas – financial performance

The operational structure of DnB NOR include five business areas. In addition, DnB NORD, which was incorporated in the Group from year-end 2005, is reported as a separate profit centre. The business areas are independent profit centres and carry the responsibility for customer segments served by the Group and the products offered.

Selected income, expenses and balance sheet figures for the business areas have been prepared on the basis of internal financial reporting for the functional organisation of the DnB NOR Group.

Return on capital for the business areas are presented in the descriptions of each area in this section. For Retail Banking, Corporate Banking, DnB NOR Markets and DnB NORD return on capital is measured as the business area's profits after taxes relative to average capital requirements according to BIS rules (6.5 per cent capital requirement), while for Vital and DnB NOR Asset Management, the calculations are based on average recorded equity. This is consistent with the manner in which most other financial institutions present their business areas.

Financial targets for business areas

Differentiated financial and non-financial targets have been set for the business areas to ensure that the DnB NOR Group reach communicated financial targets. Return on risk-adjusted capital is the key financial ratio for the business areas in internal governance and follow-up of the operations. Return on risk-adjusted capital is defined as each area's profits after taxes relative to the calculated risk-adjusted capital. The risk-adjusted capital requirement is based on the risk involved in operations in accordance with DnB NOR's total risk model.

Internal pricing

DnB NOR's financial management model and operational organisation entail the sale of products and services between the business areas in the Group. The pricing of such intra-group transactions is regulated by internal agreements based on market terms.

Certain customers and transactions of major importance require extensive cooperation within the Group. To stimulate such cooperation, net income relating to some of these customers and transactions is recorded in the accounts of all relevant business areas. This refers primarily to income from customer trading in DnB NOR Markets. In 2006, such income totalled NOK 1 283 million. Double entries are eliminated in the group accounts.

Services provided by staff and support units will as far as possible be scaled and priced according to use. Joint expenses incurred by group staff units and other group expenditures that cannot be debited according to use, are charged to the business areas' accounts on the basis of special distribution formulas. Costs relating to the Group's equity transactions, including strategic investments, and direct shareholder-related expenses and costs concerning the Group's governing bodies are not charged to the business areas.

The Group Centre includes Human Resources and Group Services, Finance/Group Staff, Risk Management and IT, Corporate Communications, investments in IT infrastructure and shareholder-related expenses. In addition, the Group Centre includes that part of the Group's equity that is not allocated to the business areas. The eliminations refer mainly to internal services from support units to business areas and between business areas. Further, intra-group company transactions and gains and losses on transactions between companies in the Group are eliminated. The elimination of double entries concerns net profits on customer business carried out in cooperation between DnB NOR Markets and other business areas and taken to income in both areas.

Corporate Banking and Payment Services

Corporate Banking and Payment Services serves Norwegian enterprises in all segments, Swedish medium-sized and large corporates and international businesses where DnB NOR has or can build up a competitive advantage based on relationships, expertise or products - alone or in cooperation with partners.

DnB NOR holds a strong position in all segments of the Norwegian corporate market, and is one of the world's leading shipping banks. Corporate Banking and Payment Services is organised in ten divisions and two subsidiaries; DnB NOR Finans and Nordlandsbanken. Leif Teksum, group executive vice president, heads the business area.

Corporate Banking and Payment Services aims to be the customers' best partner, meeting their needs for financial solutions throughout the Norwegian and Swedish markets and in selected areas in international markets.

Norway and Sweden are the main countries in which Corporate Banking and Payment Services perform market activities and seek growth. Corporate Banking and Payment Services also offers international services to shipping and energy clients around the world. Further international expansion will come within shipping, energy and certain other sectors where competitive advantages and a substantial knowledge base provide growth potential.

Comments to the financial performance in 2006

- Corporate Banking and Payment Services maintained a strong market position in 2006 and achieved growth in pre-tax operating profit compared with 2005. Bolstered by an expanding Norwegian economy, the high level of activity and continuing strong growth in volumes contributed to a healthy rise in profits.
- Net interest income from ordinary operations was up NOK 894 million. Strong competition resulted in narrowing spreads that was more than offset by strong volume growth in both lending and deposits. The average combined spread was 1.80 per cent in 2006, compared with 1.97 per cent in 2005. Portfolio quality improved further, and pricing reflected credit risk
- There was a high level of customer activity in 2006 and income from syndicated loans, corporate finance, foreign exchange and derivative products, securities services, guarantees and commercial property broking increased compared with the corresponding period in 2005.
- Net reversals on loans totalled NOK 43.5 million and net gains on assets totalled NOK 134.5 million in 2006.

- Average lending and guarantees to customers increased by NOK 85.2 billion in 2006 and average deposits were up NOK 44.7 billion.
- A total of NOK 51.9 billion in syndicated credits defined as the difference between underwriting and final hold, was arranged for customers in cooperation with DnB NOR Markets in 2006. NOK 85.7 billion in commercial paper and bonds were issued in 2006.

Customers and market developments

- DnB NOR is the leading financial institution in the market for large Norwegian corporates. In addition to the Norwegian and Swedish markets, Corporate Banking and Payment Services is offering services in New York, Houston, London, Singapore, Copenhagen, Hamburg and Helsinki. DnB NOR Monchebank, headquartered in Murmansk, Russia, is organised as a part of Corporate Banking and Payment Services. The bank has all necessary licenses to do banking business in Russia. On 20 September DnB NOR established a full-service branch in Shanghai, and the office will play a major role in DnB NOR's strategy within the shipping sector. In Sweden, which is defined as part of the Bank's extended home market, Corporate Banking and Payment Services has high growth ambitions.
- The cooperation between DnB NORD and Corporate Banking and Payment Services has strengthened DnB NOR's position in Denmark, Finland, Lithuania, Latvia, Estonia and Poland, supporting DnB NOR's aim to become one of the most attractive supplier of financial services throughout this region.
- Through a wide distribution network, DnB NOR offers customers local and regional expertise as well as national sector analysis and a broad product range.
- The strong position in the Norwegian SME market was maintained through 2006. A total of 11 600 new clients were acquired over this period, which is 1 800 more than through 2005.
- The customer loyalty programmes for SME clients, 'Partner' and 'Partner pluss', which include agreement on the use of Internet banking applications and credit cards as well as favourable prices on a number of the Group's products, had more than 12 800 clients at year-end 2006. A total of 2 700 new programme memberships were established through 2006, both among new and existing SME clients. In October 2006 DnB NOR launched two new programs, "Partner Start", targeting entrepreneurs and 'Partner Landbruk', targeting farmers.
- Customer surveys show that DnB NOR has a strong position among large corporates with respect to quality and customer satisfaction. Over all satisfaction is improved as well as quality within important areas. Customer satisfaction in the SME market is at an acceptable level, but initiatives have been taken to improve satisfaction levels among the smallest companies.
- Corporate Banking and Payment Services aims to be the preferred provider of Internet services to corporate clients and new products were offered in 2006. More than 90 million transactions amounting to more than NOK 5 900 billion were carried out by corporate customers through the Internet bank in 2006.
- Mandatory occupational pension schemes has been introduced from 2006. DnB NOR has launched new life insurance products for its corporate customers, delivered by Vital and distributed through the Group's broad regional network and via telephone sales. This successful cooperation resulted in a total of 14 500 new corporates with mandatory occupational pension for 210 000 new members.
- DnB NOR is committed to maintain and further enhance a strong local presence. Local management and employees have extensive pertinent expertise and are authorised to grant credits that meet the requirements of the SME segment as well as larger clients.
- Nordlandsbanken enhances DnB NOR's position in the northernmost part of Norway. The subsidiary serves the county of Nordland and operates under the brand name Nordlandsbanken.

Organisation and distribution

Corporate Banking and Payment Services is organised in ten divisions:

- The Nordic Corporate Division and the International Corporate and Institutions Division serve large Norwegian corporates, the public sector, international companies that do business in Norway, international customers in the oil and energy, Telecom, Media and Technology, healthcare and pulp and paper industries sectors as well as financial institutions.
- The Shipping, Offshore and Logistics Division serves Norwegian and international shipping, offshore and maritime logistics companies.
- Regional Division East and Regional Division Coast serve businesses in three different segments based on geographical location.
- The Sweden Division serves large and medium sized businesses in Sweden.
- The Workout Division is responsible for supporting the customer divisions in their work on high-risk customers and non-performing commitments.
- Telephone & Online Banking, Market and Product Division is responsible for cash management, marketing, telephone and on-line banking.
- Bank Production is responsible for customer support, credit and collateral administration as well as carrying out payments.
- Administration and Payment Services is responsible for management support as well as group-wide responsibility for payment products and infrastructure projects affecting both retail and corporate customers. DnB NOR's operations in Finland, Denmark, Germany and Russia are also organised in this division.

Products

Corporate Banking and Payment Services offers customers a broad range of financial services, including lending, bond issues, syndication of loans, deposits, cash management, eCommerce products, commercial real estate broking services, FX/treasury products, corporate finance and acquisition finance, either directly or in cooperation with DnB NOR Markets.

Through DnB NOR Markets Inc. in the US, DnB NOR offers investment banking services, including mergers and acquisitions and advisory services, to international clients, particularly in the shipping and energy sectors.

Employees

- The considerable expertise of DnB NOR employees in local business, specific industry knowledge, credit risk, customer needs and product offerings is an important competitive advantage of Corporate Banking and Payment Services in the domestic market. Corporate Banking and Payment Services has a broad competence base and is committed to its continuous development. Competence training has top priority and particular emphasis has been placed on systematic specialised training in credit rating and risk and profitability analyses.
- Competence has been strengthened in areas that enable Corporate Banking and Payment Services staff to offer customers strategic advice, including training programs in presentation and communication skills.
- To strengthen the skills for employees working within the important SME segment the "SME Academy" was started in the fourth quarter of 2006. 180 employees attended Module 1 the last three months of 2006. Almost 400 employees are expected to attend in 2007.
- To stimulate enterprising and customer-focused management based on the Group's values, the 18-month training programme "Fram" was started for potential managers in Regional Division East and Regional Division Coast in 2006. The first programme has 16 participants.
- The importance of empowerment has been addressed in 2006. It has been decided to
 develop a training program, called Wise leadership My way of being. The program is specific
 for leaders in Corporate Banking and Payment Services. Leaders in the business area also
 attend the Groups International Management Program, based on DnB NOR's Leadership
 Principle.
- At year-end 2006, the business area had a staff of 2 635 full-time positions, with 2 202 in Norway, of which 588 in subsidiaries, as well as 433 full-time positions in international units.
- Incentive structures and balanced scorecards are tailored to the goals of the different divisions. In order to maximise performance and attract the best account officers, remuneration varies from division to division.

Cooperation with other group entities

Through extensive cooperation with other business areas and support functions in the Group, corporate customers are offered a broad range of financial services particularly within corporate finance, FX and interest rate instruments, life insurance and pension products.

Retail Banking

Retail Banking, serving private customers and small companies under the main brand names DnB NOR, Postbanken and Nordlandsbanken, is Norway's largest retail bank. Åsmund Skår, group executive vice president, is head of the business area. Retail Banking aims to maintain its leading market position and stand out as the customers' best financial partner.

Good advisory services, loyalty programmes and relevant dialogue are central tools building strong customer relations. Customer satisfaction is vital to the bank. We are continually working towards improving this, by taking suitable steps such as offering new products and distribution channels. DnB NOR should be easily accessible, and its distribution channels should be further developed to reflect customer preferences.

Economic growth is strong in Norway and Norwegian households face good future prospects. Private consumption is high and certain business sectors are suffering from a labour shortage. There is a high demand for savings products and loans, even though interest rates are rising and the growth in house prices is predicted to slow over the next few years. Interest rate and lending trends are expected to lift deposit volumes in 2007, and the high capacity utilisation indicates an increase in salaries. Competition for housing loan customers is intensifying among both domestic and Nordic players, as is competition in the credit card market. Due to DnB NOR's dominant position in the domestic market and sharpening competition in Norway, Retail Banking is also looking for future growth opportunities abroad.

Organisation and distribution

Retail Banking offers a wide range of financial products and services through Norway's largest distribution network, in terms of number of contact points with customers. The major distribution channels are:

- DnB NOR's, Postbanken's and Nordlandsbanken's branch offices
- The postal network
- Internet and telephone
- Investment Advisory Services

DnB NOR Bank ASA and Norway Post have signed an agreement relating to the distribution of financial services through the postal network. The agreement is mainly based on transaction-specific prices and a common aim to increase the number of financial services distributed through the postal network and will remain in force until December 2012.

Postbanken and Norway Post have established joint service solutions provided through 1 184 instore postal outlets where customers can carry out everyday banking transactions in their local stores. 6.8 million payment transactions were carried out through these channels in 2006. Norway Post has entered into an agreement with DnB NOR for the purchase and installation of up to 2 500 payment terminals for use in post offices and in-store postal outlets.

Production, staff and support functions are largely centralised in cost-efficient units. The cooperation with 16 regional savings banks involves the provision of technological solutions and distribution of the Group's products. The current agreement is in force until the end of 2009. However, four of the savings banks have already terminated the agreement and thereby ended their cooperation during 2006, and three more will end their cooperation during 2007.

DnB NOR Boligkreditt AS

DnB NOR Boligkreditt AS was established in 2003 and an application will be made to operate as a mortgage institution once the necessary amendments have been made to laws and regulations. It is expected that the new laws and regulations will be in place in the first quarter of 2007. DnB NOR Boligkreditt AS was established to secure less expensive funding for the DnB NOR Group, thereby increasing Retail Banking's competitiveness. The company will issue covered bonds based on a portfolio of well-secured housing loans. Expectations are high that these bonds will receive an AAA rating. The issue of AAA rated bonds will attract completely new investor groups, and less expensive funding can be achieved. This will reduce DnB NOR's liquidity risk.

New products

- Home Equity Credit Lines were launched in autumn 2006. The product is a flexible home loan, and customers service the loan via their Internet bank.
- DnB NOR's mobile bank was launched in 2006, a simplified version of online banking that is
 easily accessible to customers. November 2006 saw the launch of a simple SMS service to
 check balances, and the mobile bank will be further developed to offer a wider spectre of
 services. In order to realise the visions for DnB NOR's mobile bank, good security solutions
 are required and work is in progress to put into place a Norwegian infrastructure for BankID
 on mobile phones.
- DnB NOR launched Young Adult Car Loans in 2006. The product is part of a campaign directed at the young adult market. With reduced own-damage cover and adjusted own capital requirements, young adults are able to finance and insure cars in their own name.
- New e-commerce security solution "Verified by Visa".
- Complete property guide on WAP.
- Loyalty programmes introduced in Nordlandsbanken.

Employees

As at the end of December 2006 Retail Banking staff represented 4 080 full-time positions. During the autumn 70 new employees have been recruited to Retail Banking and will follow a three-year training programme.

To ensure a high level of professional expertise and advisory services of a superior ethical standard, DnB NOR has initiated certification of advisers in Retail Banking. All employees who are primarily engaged in advising retail customers will be certified.

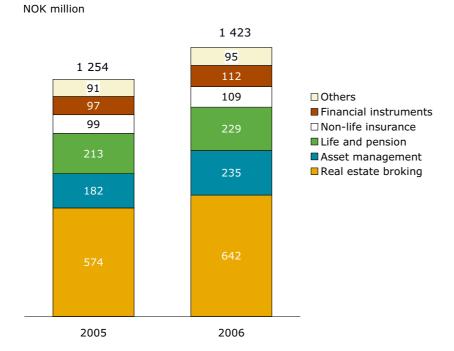

Cooperation with other group entities

Cross-selling of products is one of the major strengths of the DnB NOR Group. Through its distribution network Retail Banking offers:

- Asset management services (DnB NOR Asset Management)
- Life and pension insurance (Vital)
- Financial instruments (DnB NOR Markets)
- Car loans (DnB NOR Finans)

Income from products sales

Residential real estate broking

DnB NOR's real estate broking activities are coordinated by DnB NOR Eiendom AS, a market leader within the real estate broking business. DnB NOR Eiendom had 85 outlets located in DnB NOR branches as at the end of December 2006. Postbanken Eiendom has been relaunched, with the aim of establishing real estate broking at all Postbanken customer service centres in Norway. In addition to fee income, real estate broking operations generate business in the form of residential mortgages and savings.

Consumer finance

- DnB NOR's card-based services and consumer finance activities are coordinated in DnB NOR Kort (an entity within DnB NOR Bank ASA).
- DnB NOR Kort's lending volume increased to NOK 10 858 million, from NOK 10 672 million at year-end 2005.
- Consumer finance activities generated healthy profits in 2006.
- DnB NOR Kort is Norway's leading card issuer in terms of cards issued and lending volume.
 As at 31 December 2006, the entity had issued more than 1.5 million credit and charge cards. Including debit cards, the DnB NOR Group had issued approximately 3.6 million cards.

Non-life insurance

Vital Skade was the first company in Norway to develop a totally integrated virtual insurance site where Internet banking customers can buy non-life insurance products (home, car, travel etc.). Products are sold on a commission basis. Vital Skade operates as an agent and assumes no risk on its own.

Vital Skade has entered into non-exclusive agreements with 13 academic associations offering non-life insurance products through specialised service centres. Premium income generated in Vital Skade in 2006 totalled NOK 518 million, an increase of 11 per cent on the 2005 figures. Academic associations account for 46 per cent of total premiums. Sales through the Internet banking application continued to show strong growth compared with the previous year, with total premiums of NOK 159 million, up from NOK 122 million in 2005. Commission income increased by 9 per cent, from NOK 86 million in 2005 to NOK 95 million in 2006.

DnB NOR Markets

DnB NOR Markets is Norway's largest provider of a wide range of securities and investment banking services. DnB NOR Markets comprises the following units:

- FX/Rates/Credit/Real Estate
- Equities
- Corporate Finance
- Securities Services

The Group Treasury is organised within DnB NOR Markets though profits and losses for the unit are not recorded under this business area. Ottar Ertzeid, group executive vice president, is head of DnB NOR Markets.

DnB NOR Markets aims to be the leading investment bank for Norwegian and Norwegian-related customers, as well as international clients requiring services relating to Norway and the Norwegian krone. Clients outside Norway are served through the Group's international units, especially shipping and energy clients and Norwegian companies' international entities.

DnB NOR Markets is a full-service investment bank with leading market positions in Norway. The business area has:

- A diversified business/revenues mix (products and customers)
- A sound mix of customer and trading activities
- Cost- and capital-efficient operations

Comments to the financial performance in 2006

- DnB NOR Markets achieved record-high revenues and profits in 2006. Income rose in all areas compared with the year-earlier period.
- Total revenues increased by NOK 912 million or 30 per cent, and pre-tax operating profit rose by 38 per cent.
- Income on customer business increased by NOK 516 million, or 22 per cent, with the most pronounced rise within equities brokerage, debt capital markets and custodial and other securities services.
- Market conditions were favourable and activity levels high, especially during the periods from January through May and October through December.
- The business area recorded a very satisfactory cost/income ratio and a sound return on equity. The increase in operating expenses mainly reflected performance-based pay and investments in information technology.
- Customer demand for interest rate and currency products remained strong.

- Record-high activity within equities brokerage and strong growth in the Norwegian derivative market.
- Brisk demand for alternative investment products, such as capital-guaranteed savings and, most notably, commercial property and shipping investments.
- There was record-high activity within securities lending.
- Market making/trading revenues totalled NOK 913 million, up NOK 318 million compared with the year-earlier period, with particularly good performance within NOK interest rate products.

Distribution and cooperation with other entities

Maintaining a broad distribution network and effective cooperation with other business areas within the Group, such as Corporate Banking and Payment Services and Retail Banking, are key priorities for DnB NOR Markets. Customers are served through:

- Central units located in Oslo
- International offices (London, New York, Singapore and Shanghai) and 13 regional offices in Norway. The branch in Shanghai was opened in September 2006.
- · Electronic channels and the Internet
- Cooperating savings banks
- · External agents

Customers and market shares

Interest rate sensitivity

The value of financial investments recorded on and off the balance sheet is affected by interest rate movements. The table below shows potential losses for DnB NOR resulting from parallel one percentage point changes in all interest rates. The calculations are based on a hypothetical situation where interest rate movements in all currencies are unfavourable for DnB NOR relative to the Group's positions. Also, all interest rate movements within the same interval are assumed to be unfavourable for the Group. The calculations are based on the Group's positions as at 31 December 2006 and market rates on the same date.

Vital

Vital offers group pension schemes to businesses and the public sector, the most important products being group life and workers' compensation insurance. In the fourth quarter, Vital also offered employers' liability insurance to the corporate market. In the retail market, long-term savings alternatives are offered in the form of individual pension agreements and annuities.

Vital comprises Vital Forsikring ASA including subsidiaries and the sister company Vital Link AS. Vital aims to be Norway's strongest entity within pension savings. Vital seeks continued growth within the company's business segments and aims to deliver competitive results to its policyholders and owner. Devoting further efforts to improving cost efficiency, providing top-quality advisory services, maintaining high levels of service and customer relationship management and serving as an attractive entry portal for customers into the DnB NOR Group will be instrumental in reaching these targets. Vital Forsikring and Vital Link merged in February 2007. The merger was reflected in the accounts as from 1 January 2007.

Financial results

Vital Forsikring ASA including subsidiaries and Vital Link AS are fully consolidated in the DnB NOR Group's accounts. Figures below marked "Vital" comprise Vital Forsikring including subsidiaries and Vital Link AS. Figures marked "life insurance" comprise Vital Forsikring ASA including subsidiaries.

Profit sharing between policyholders and the owner in life insurance companies is based on special accounting regulations for such operations stipulated by Kredittilsynet (the Financial Supervisory Authority of Norway). Regulations relating to profit sharing between the owner and policyholders in life insurance companies limit the DnB NOR Group's access to revenues and assets from life insurance operations.

²⁾ Figures for 2005 are exclusive of pension expenses resulting from Vital's transition to IFRS in 2005. The transition generated expenses of NOK 434 million, with NOK 282 million for policyholders and NOK 152 million for the owner and taxes. The expenses were reversed in the group accounts when DnB NOR introduced IFRS for pensions with effect from 1 January 2004.

Comments to the financial performance in 2006

- A NOK 552 million rise in profit from Vital, to NOK 2 202 million.
- Return on equity up to 25 per cent.
- Healthy return on assets in life insurance: recorded 7.5 per cent and value adjusted 8.1 per cent.
- A 10.4 per cent growth in total assets, to NOK 223.7 billion.
- A NOK 4.2 billion rise in additional allocations and security adjustment reserve from the yearend 2005.
- A 38 per cent rise in European Embedded value result, to above 5 billion.
- Market share of insurance funds including unit-linked products was 35.2 per cent by end-September, unchanged from end-December 2005.
- Market share of 32.4 per cent and market leader in the mandatory occupational pension market by end-December 2006.
- Launch of employer's fund in the corporate market

| from operations not subject to profit sharing | (4) | 5 | 5 | 5 | 24 | 11 | 32 |

- 1) Profit for allocation to the owner and taxes for operations subject to profit sharing in life insurance includes:
 - return on equity, subordinated loan capital and the security reserve, calculated as the company's return on capital, less accrued interest on subordinated loans and allocations to the security reserve

 - a margin on policyholders' funds
 a margin on effective risk premium adjusted for survival risk on contracts providing sufficient profits

According to regulations, annual profit for allocation to the owner and taxes cannot exceed 35 per cent of profit for operations subject to profit sharing. If this figure is negative, the entire amount should be charged to the owner. Total profit to the owner and taxes also includes profits from operations not subject to profit sharing.

Products and organisation

- Group pension schemes to businesses, adapted to customer needs for defined-benefit, defined-contribution and single premium pension schemes. Vital launched employer's liability insurance in the corporate market in the fourth quarter of 2006.
- Long-term savings alternatives in the form of individual pension agreements, annuities in the retail market.
- Products are offered with guaranteed returns or with a choice of investment profile (unit linked).
- Savings products from other units in the DnB NOR Group, including mutual funds from DnB NOR Asset Management and equity-linked bonds from DnB NOR Markets.

The business area is represented in most parts of Norway through sales offices and provides services through DnB NOR and Postbanken's distribution networks and independent agents, as well as via the Internet.

In the Norwegian fiscal budget, released on 6 October, the government proposed the removal of tax relief on private pension savings through individual pension agreements and annuities, with effect from 12 May 2006 and 1 January 2007 respectively. The proposed changes will entail limited tax incentives to encourage long-term pension savings.

Cooperation with other group entities

- By taking advantage of the strength of the DnB NOR Group's total distribution network, Vital is well positioned to enjoy continued market growth.
- Vital's growth in the retail market is not least due to the business area's extensive distribution network, where other business areas in the Group play a principal role.
- In the fourth quarter of 2006, other business areas accounted for 41.2 per cent of the sales of Vital's products in the retail market, compared with 65.8 per cent in the corresponding period of 2005. The reduction is caused by a decrease in sales of certain products in the retail market.

Employees

Vital gives priority to retaining and developing a high level of expertise within insurance products, management and other relevant areas of competence.

Balance sheets and capital adequacy according to NGAAP

The analyses below are prepared on the basis of accounting principles according to Norwegian accounting legislation etc. (NGAAP). Tables marked "Vital" refer to life insurance operations including unit linked operations in Vital Link AS. Tables marked "life insurance" refer to operations in Vital Forsikring ASA including subsidiaries.

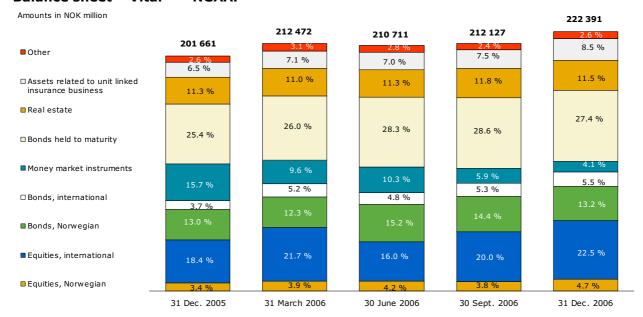

Kredittilsynet and the Ministry of Finance have not adapted solvency capital or capital adequacy regulations to IFRS. The Norwegian Ministry of Finance is expected to establish guidelines for further efforts to determine capital requirements for insurance companies up until the introduction of Solvency II.

¹⁾ Capital adequacy regulations regulate the relationship between the company's primary capital and the investment exposure on the asset side of the balance sheet. Life insurance companies are subject to a minimum capital adequacy requirement of 8 per cent.

²⁾ Solvency margin capital is measured against the solvency margin requirement, which is linked to the company's insurance commitments on the liabilities side of the balance sheet. The solvency margin requirements for Norwegian life insurance companies are subject to regulations on the calculation of solvency capital requirements and solvency margin capital, as laid down by the Ministry of Finance on 19 May 1995.

DnB NOR Asset Management

DnB NOR Asset Management provides mutual funds and discretionary portfolio management services to Norwegian and other Nordic corporate clients, the public sector, private pension funds and retail clients. Øyvind Birkeland, group executive vice president, heads the business area.

DnB NOR Asset Management seeks to provide first-class returns on customer funds within the preferred risk profile and investment horizon. DnB NOR aspires to be the leading asset manager for clients in the Nordic region, providing sound long-term returns and a high level of service based on a thorough understanding of customer needs.

Mutual fund packages, the 'Spar Smart' concept, launched in September 2005, were well received in the market. During 2006, more than 22 000 'Spar Smart' savings schemes were signed. The number of active savings schemes was up 9.9 per cent during the last year.

During the fourth quarter, eight additional DnB NOR funds received four or more stars from the rating company Morningstar, bringing the percentage of DnB NOR funds awarded a minimum of four stars by Morningstar to 40.2 per cent.

DnB NORD

In 2005, DnB NOR's growth platform was strengthened through an expansion of its international operations. DnB NOR and Norddeutsche Landesbank, NORD/LB, decided to establish a jointly owned bank in the Baltic Sea region, DnB NORD. DnB NORD was established in December 2005 and is owned 51 per cent by DnB NOR and 49 per cent by NORD/LB from year-end 2005. The bank is headquartered in Copenhagen and is headed by Sven Herlyn.

The Baltic States and Poland are important markets experiencing strong growth, and an increasing number of DnB NOR's customers are establishing operations in this area. Thus, the creation of DnB NORD is an important strategic initiative in accompanying customers into one of Europe's most dynamic regions. DnB NORD aims to become a leading bank for cross-border solutions around the Baltic Sea. DnB NORD has taken over NORD/LB's operations in Estonia, Latvia, Lithuania and Poland. DnB NORD has a strong market position from the start, as the third largest bank in Lithuania and the fourth largest in Latvia. DnB NORD is also represented in Finland and Denmark, benefiting from the corporate portfolio taken over from DnB NOR and NORD/LB and can provide a full service operation for corporate banking.

Comments to the financial performance in 2006

- Profit for the period was NOK 274 million, corresponding to a return on calculated BIS capital
 of 10.5 per cent.
- Strong growth in loan volumes in the Baltic and Poland. Growth in total customer lending was 60 per cent compared to pro forma figures including corporate portfolio, which was taken over from DnB NOR and NORD/LB in the beginning of 2006 and 5,6 per cent from end-September 2006. The rise in lending reflected the appreciation of euro, and growth equalled 88 and 6 per cent respectively when adjusted for exchange rate movements.
- Lower deposit to lending ratio than year-end 2005 due to high growth in loan volumes.
- Total assets of NOK 46,4 billion.
- Cost/income ratio of 73.6 per cent in the fourth quarter of 2006 compared to 62.4 per cent in the third quarter. Expenses in the fourth quarter were high due to performance-based pay and higher activity towards the end of the year.
