

Broström is one of the leading logistics companies for the oil and chemical industry, focusing on industrial product and chemical tanker shipping and marine services. Broström is based worldwide, with the head offices in Göteborg, Sweden.

Press Release

Broström takes delivery of the BRO GAZELLE

The 7,600 dwt product tanker BRO GAZELLE has been delivered from the Dutch shipyard Ferus Smit. The vessel is the ninth Broström vessels in a series of ten being built in partnership with Erik Thun AB.

The BRO GAZELLE, and her sister vessels are specifically designed for North European short sea tanker shipping where Broström is the market leader. Short sea tanker shipping demands tight co-operation between vessel operators and their customers within the oil industry. The vessels often do numerous and short journeys within the customers' internal logistics systems with high demand on efficient loading and discharging.

The BRO GAZELLE which is built by ice class 1A is manned and technically operated from the Netherlands and is flying the Dutch flag.
