

## Rönnbäcken Nickel Project

— IGE Nordic Exploration licenses

● Drill holes – completed, assay presented earlier

● Drill holes – completed, assay pending

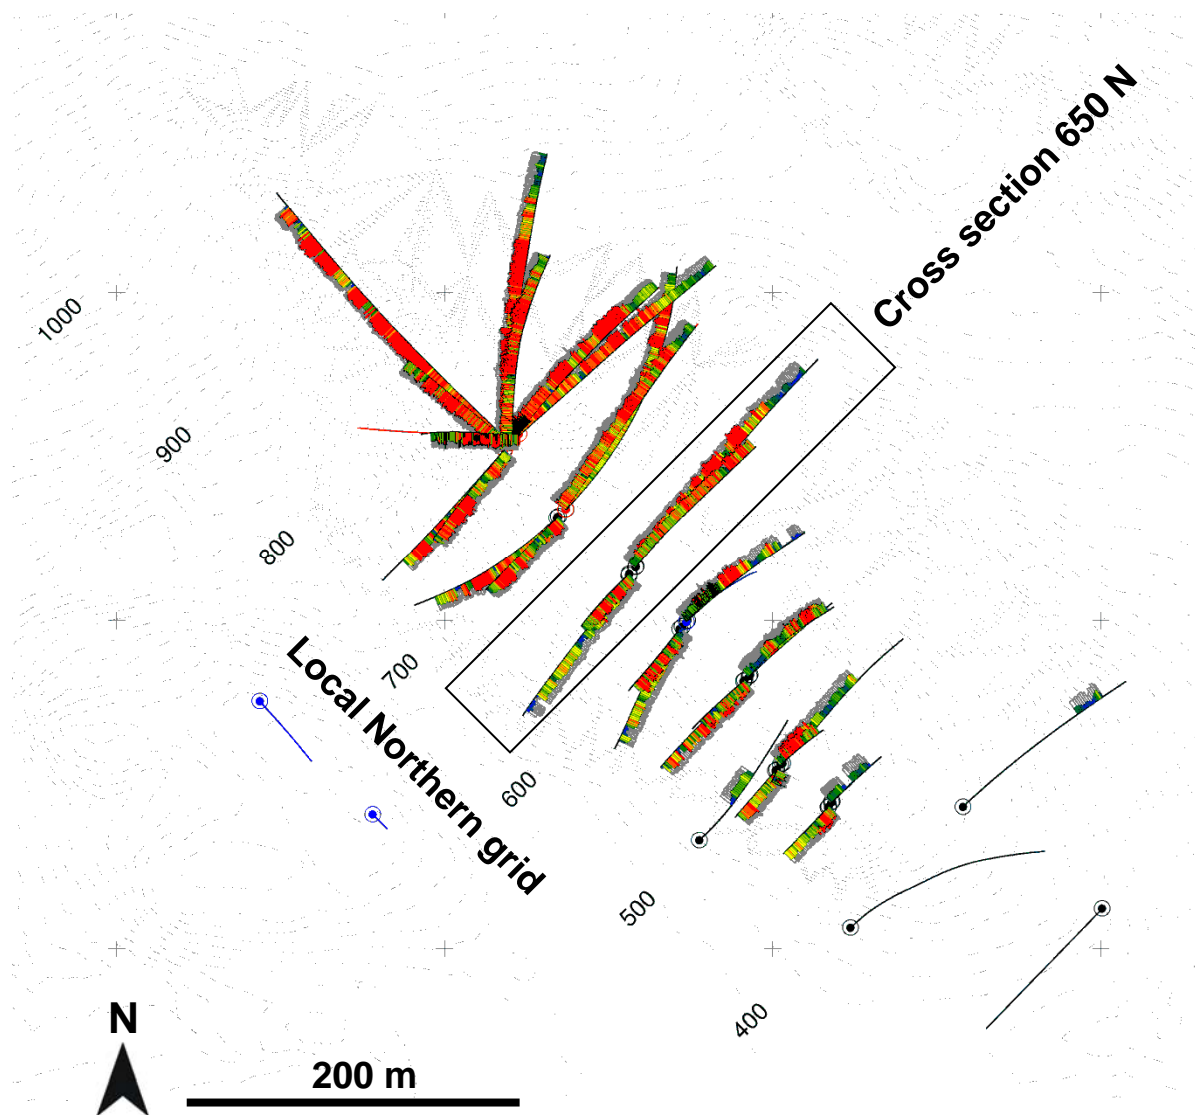

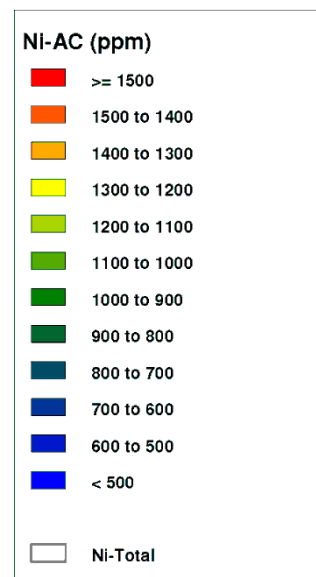

● Drill holes – completed, assay presented in this press release

16,000 m drill program finalized

## Vinberget map

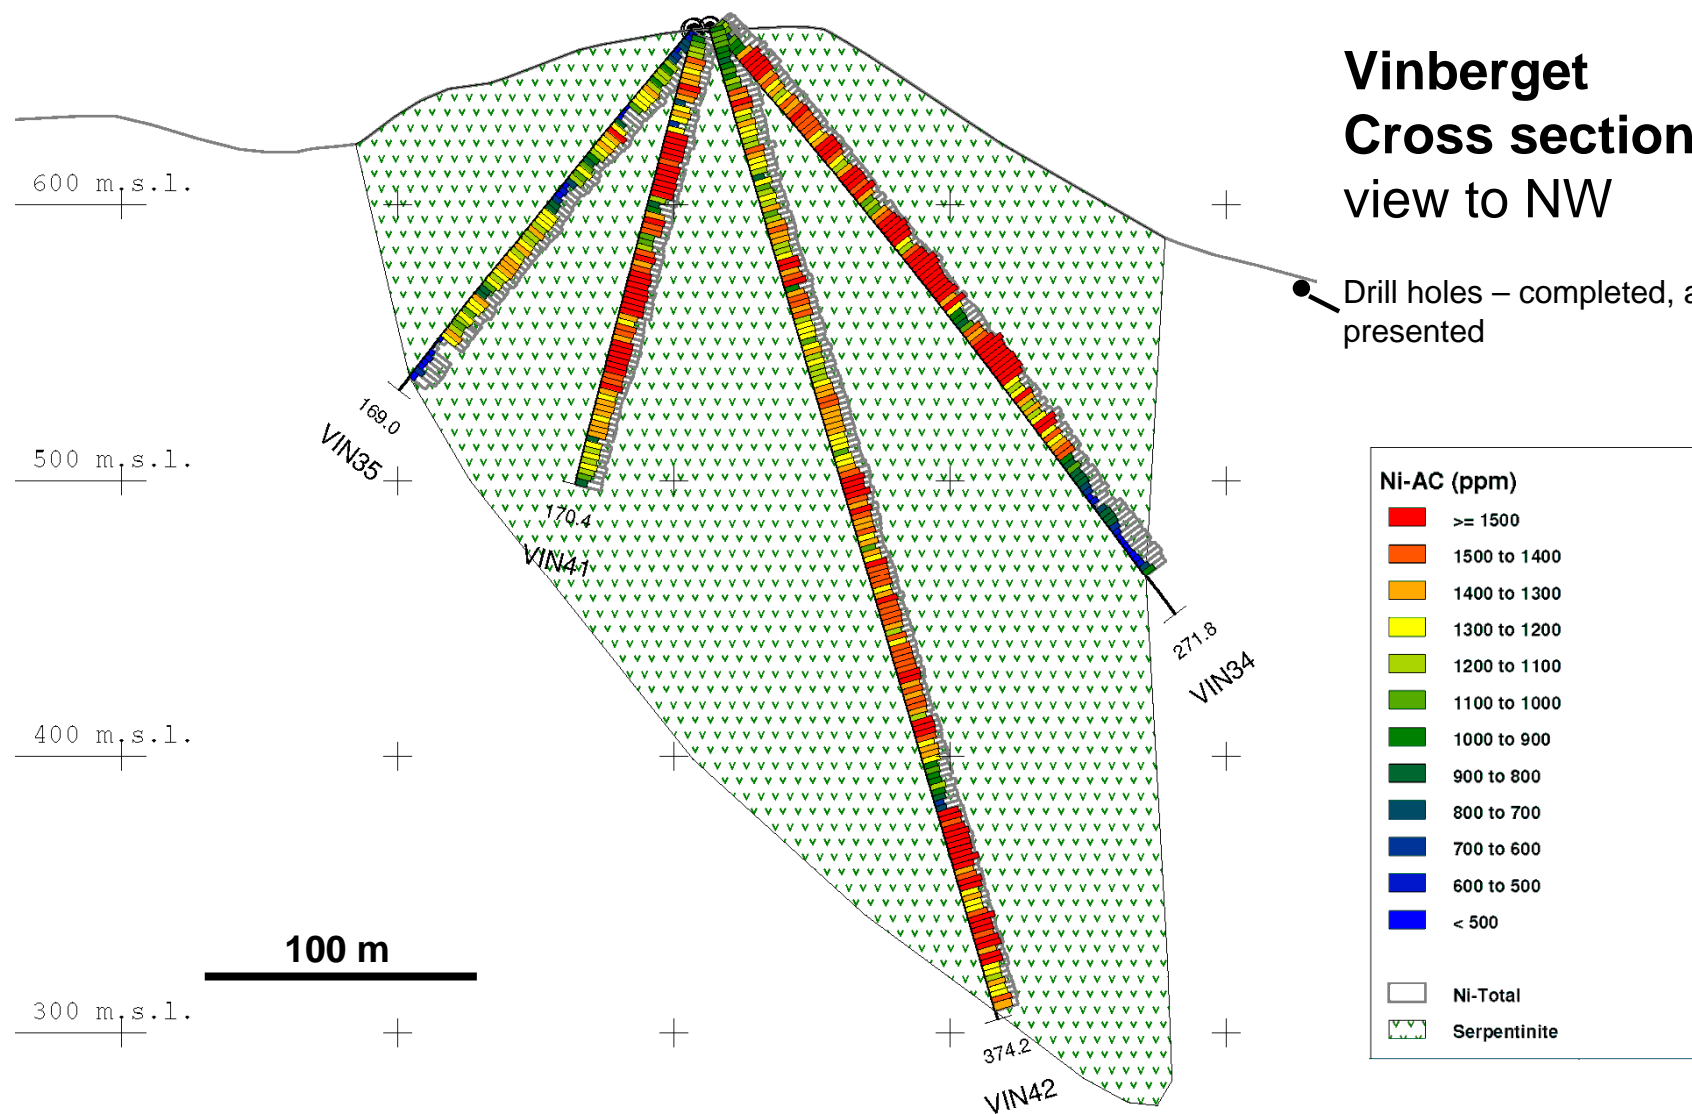

-  Drill holes – completed
-  Drill holes – completed, assay pending
-  Drill holes – completed, assay presented in this press release

**7,878 m drilled**  
**42 holes drilled – 2 holes and 1 extension left to assay**

## Vinberget Cross section 650 N, view to NW

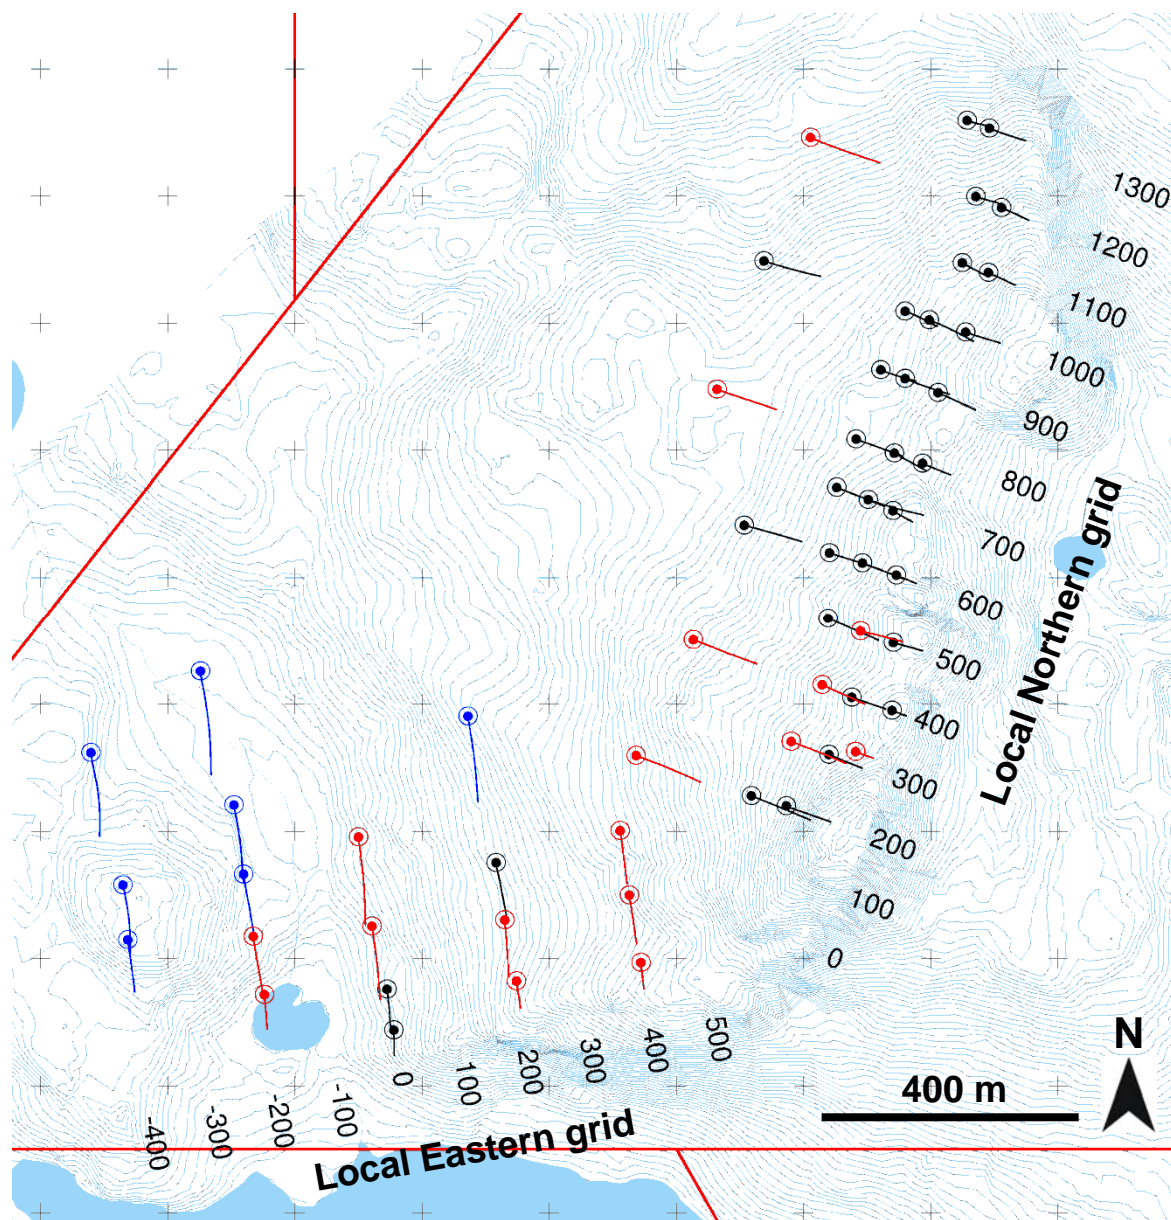

● Drill holes – completed, assay presented

## Rönnbäcksnäset map

- IGE Nordic Exploration licenses
- Drill holes – completed, assay presented
- Drill holes – completed, assay pending
- Drill holes – completed, assay presented in this press release

**8103 m drilled**  
**57 holes drilled – 7 left to assay**

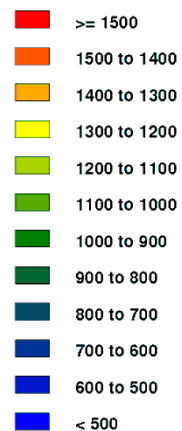

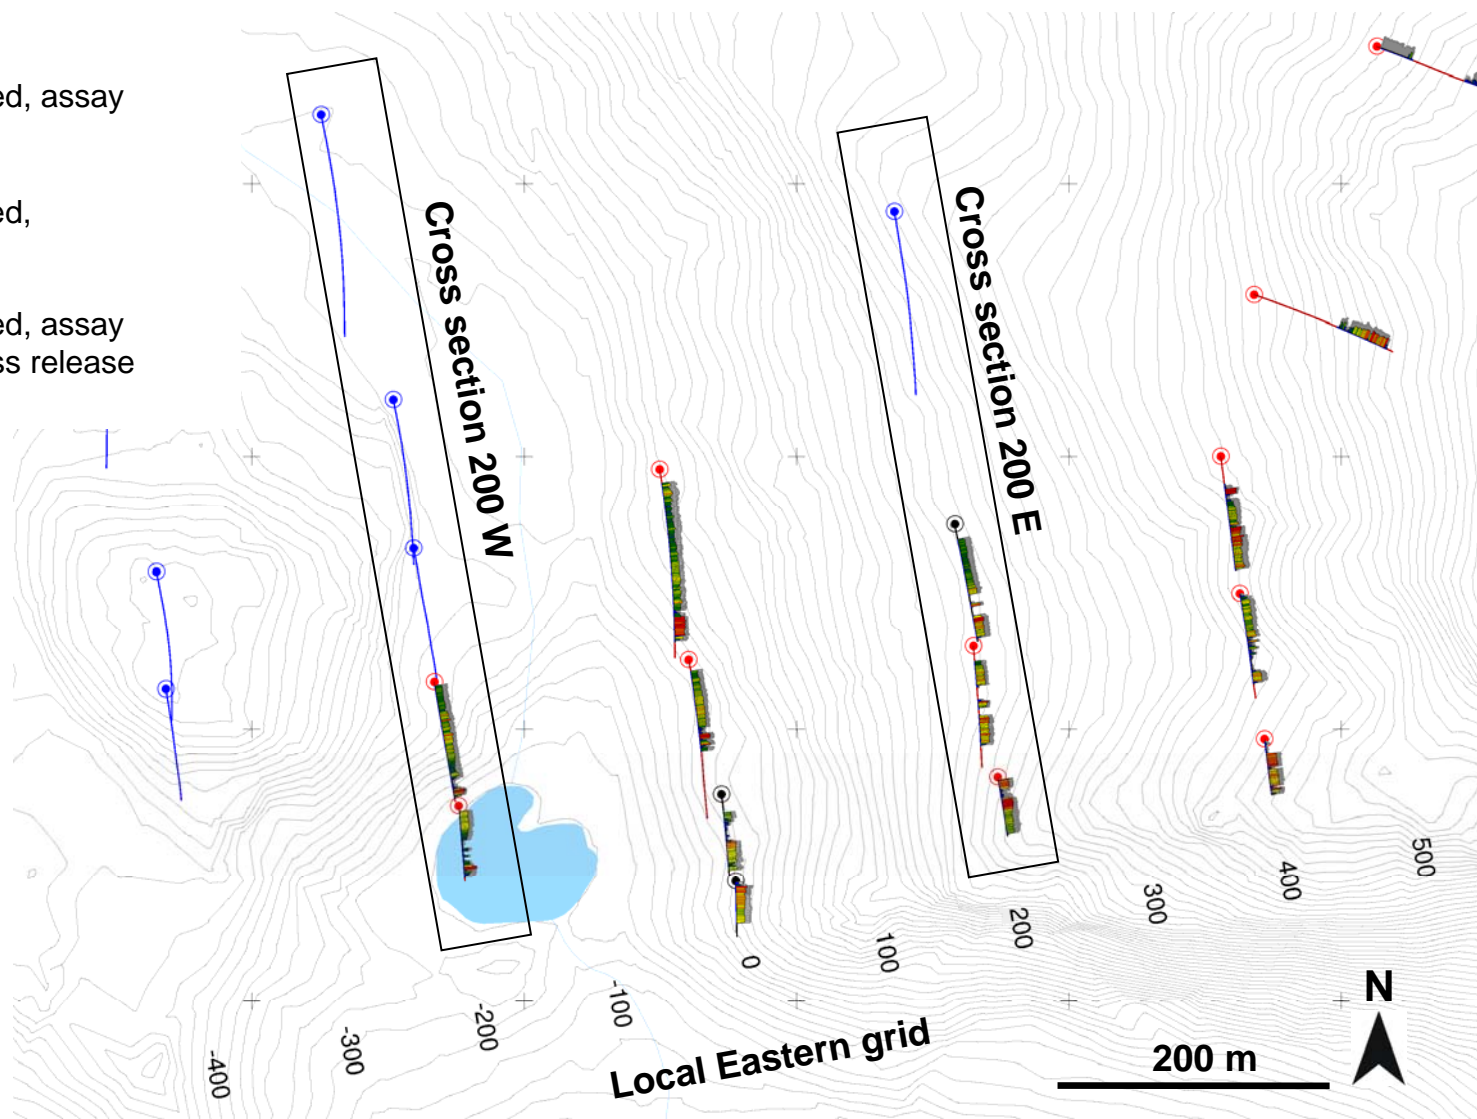

## Rönnbäcksnäset South area

- Drill holes – completed, assay presented
- Drill holes – completed, assay pending
- Drill holes – completed, assay presented in this press release

### Ni-AC (ppm)

□ Ni-Total

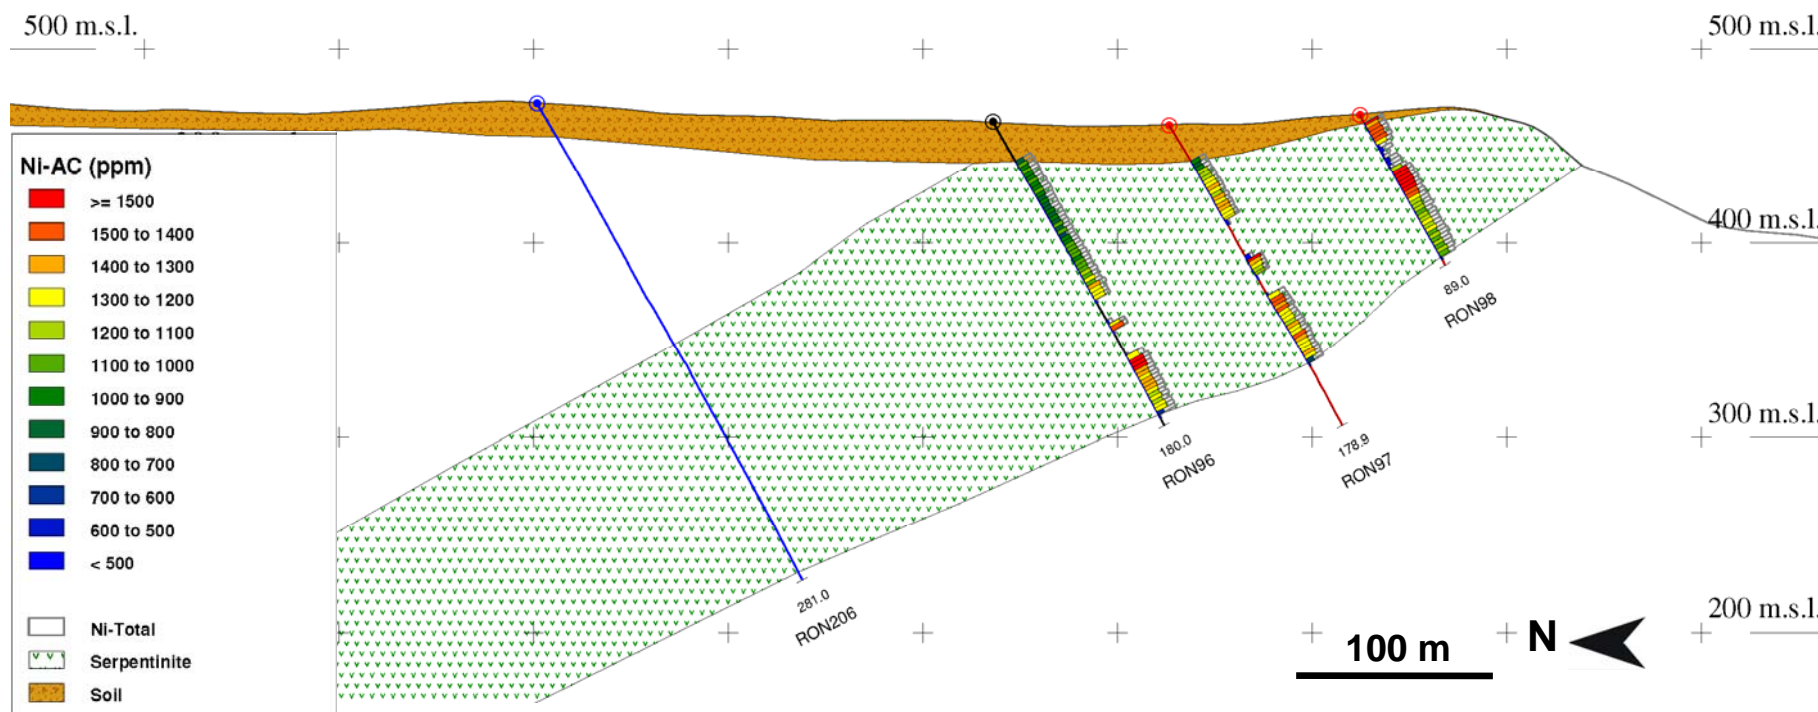

## Rönnbäcksnäset Cross section 200 E, view to E

-  Drill holes – completed, assay presented
-  Drill holes – completed, assay pending
-  Drill holes – completed, assay presented in this press release

Drill rig in operation at Rönnbäcksnäset

## Rönnbäcksnäset Cross section 200 W, view to E

-  Drill holes – completed, assay presented
-  Drill holes – completed, assay pending
-  Drill holes – completed, assay presented in this press release

Core storage in Skellefteå
