

## Press release

### **Technology Nexus AB (publ) strengthens its leading position in the field of IT security through the acquisition of Network Management AB.**

Technology Nexus AB, hereinafter referred to as Nexus, has signed a letter of intent with Informator AB concerning taking over the activities of Informator's subsidiary Network Management TCP/IP AB, hereinafter referred to as Network Management.

The parties intend to conclude the deal within this year.

Network Management AB has cutting-edge expertise in the field of IT security and LAN/WAN communications and supplies services and solutions for IT security as well as Network Management, including Network Design, Network Operation and IP telephony.

Network Management AB also works in partnership with Microsoft within the framework for Microsoft Technet (technical training) and supplies in-depth technical expertise for Microsoft platforms.

Network Management arranges the annual IP days, one of the country's leading Internet, communications and security events.

"Network Management is a very skilled company and has an obvious and natural role to play in Nexus. The company will help to further strengthen Nexus' current position as one of the market leaders in the rapidly growing IT security field," says Mats Enquist, vice president, Nexus.

"As a part of Nexus, Network Management will be in a better position to satisfy its customers requirements for total solutions in which security is a crucial component. This is a strategically correct step for Informator in its aim to refine the company's training operations," says Mats Gröndahl, MD, Informator AB.
