Press release

AarhusKarlshamn AB – Record high second quarter operating profit and AAK Acceleration on track

- Net sales in the second quarter increased to SEK 3.907 million (3.594) mainly due to increased raw material prices and a better product mix, partly offset by a negative currency translation impact of SEK 361 million. Volumes decreased by 8 percent due to lower commodity volumes consistent with previous quarter. Volumes of speciality products continued to increase in line with the strategy and the action plans defined in AAK Acceleration.
- Operating profit amounted to SEK 196 million (164), an improvement of 20 percent. At fixed exchange rates operating profit improved by 32 percent.
- Continued profit improvements in Food Ingredients and strong improvements in operating profit per kg.
- The business area Chocolate & Confectionery Fats showed volume growth and stable margins.
- On the 1 July, 2011 the company strengthened its positions in North America by acquiring the flaked shortenings market leader, Golden Foods/Golden Brands.
- Earnings per share amounted to SEK 3.04 (2.65), an improvement of 15 percent.
- *“We are now going into the third quarter and we remain prudently optimistic for the quarter and for the execution of AAK Acceleration”*, commented AAK President and CEO Arne Frank.
