

Geveko overall winner in interim reporting

The annual contest organized by the Swedish Shareholders Association and the company Kanton, aims to promote exemplary financial communication among listed companies.

All interim reports for companies listed on OMX Nordic Exchange Stockholm and the NGM Stock Exchange have been reviewed in order to appoint an overall winner and the best company in each separate list.

Geveko was appointed the overall winner.

Kantons' statement reads as follows:

"Geveko's interim report is an excellent model as regards contents. CEO's review which initiates the report is rich in information presented in clear subheadings. The report as well contains brief information about the company. In addition to this Geveko made an early publication why Geveko reaches an overall victory in interim reporting."

Göteborg, Sweden September 15, 2011
AB GEVEKO (publ)
