No. 32/11

NCC commissioned to construct technology center in Finland for SEK 265 million

NCC Construction Finland has been commissioned by Cargotec to construct a technology center in Tampere, Finland. The order is valued at approximately SEK 265 million and will be registered in the third quarter of 2012.

The total scope of the project is approximately 20,000 square meters of floor space distributed between a five-story office building and a workshop located adjacent to the office premises.

The operation will comprise the development of containers and research into heavy materials handling.

Construction of Cargotec's technology and know-how center in Tampere has already commenced and is expected to be completed in December 2012.
