Press Release. New Verbatim Store 'n' Go Traveller HDD

Safe and easy storage solutions for the business user on the go

- **Tough enclosure to make the drive more resistant to knocks whilst travelling**
- **USB 3.0 SuperSpeed data transfer offering up to 4.8 Gigabit per second**
- **USB plug 'n' play (no additional power required)**
- **100% compatible with USB 2.0**
- **Nero BackItUp and Burn Essentials software**
- **Quick Start Guide printed in 27 languages**

The drive is plug 'n' play and requires no external power for operation. It is also 100 per cent backwards compatible with USB 2.0 systems.

For added security Nero BackItUp and Burn Essentials software enables automatic or manual back up of files, folders and drives. The software also includes Nero Express which provides the facility to easily burn files to CD or DVD, and Nero RescueAgent which helps to recover files should they become damaged.

Also on the drive is Green Button software which reduces energy consumption and extends the drive's life expectancy by automatically placing the drive into sleep mode after a programmed period of time or by the user manually clicking on the Green Button on the desktop.
