

## Proact in Norway achieves Symantec Data Protection Master specialisation

*Proact IT Norway Recognised by Symantec for Expertise in Data Protection*

Oslo — October 14, 2011 — Proact IT Norway today announced that it has achieved Symantec Master Specialization in the area of Data Protection. Symantec Master Specialization recognizes and promotes qualified partners' deep expertise in delivering advanced consulting services in a specialized solution area. Proact IT Norway has already achieved Symantec Specializations in Data Protection, Archiving & eDiscovery, High Availability and Storage Management.

- Symantec is a world leader in solutions for security, storage and systems management, and it is very important for us to be at the top of the company's products, "says a proud Eirik Pedersen, CEO for Proact IT Norway.

By achieving this Master Specialisation, Proact IT Norway has demonstrated an investment and expertise in Symantec Data Protection. With this Master Specialisation, Proact IT Norway will be able to better meet the needs of its customers by delivering high-value solutions to protect and manage their information.

"The Specialisation Program was designed to recognise partners' commitment to Symantec and reward their expertise," said Jason Ellis, VP of Channel Sales, EMEA at Symantec. "Specialised partners have demonstrated a deep investment in Symantec and an expertise in delivering solutions and services that protect customers' most critical information."

Symantec Master Specializations, which recognize partners with a proven expertise in a particular area of business, provide partners with the skills and experience required to deliver differentiated service to their customers. Symantec partners achieve Master Specialization by meeting certain requirements that deepen their knowledge and proficiency in a solution family, and Master Specialized Symantec partners receive exclusive benefits as a result of their investment.
