

New UK Cardiographers Jobs at Ambition 24AHP

UK agency [Ambition 24AHP](http://www.a24ahp.co.uk) has Cardiographers (Band 5/6) jobs nationwide and has Allied Health Professionals (AHP) and Health Science Services (HSS) jobs throughout England, Scotland and Northern Ireland.

Ambition is a nationally contracted provider of AHP locums to the NHS, and is PASA Approved. The AHP agency supplies medical staff to hospitals, PCTs, prisons and private organisations. A member of the [A24 Group](http://www.a24ahp.co.uk), further information is at www.a24ahp.co.uk.

Currently Ambition specialises in the provision of Cardiographers (Band 5/6) jobs and vacancies for other AHP Allied Health Professionals and HSS Health Science Services staff for temporary placement within the private sector and the NHS.

The A24 Group was one of the first AHP and HSS agencies to provide a 24-7 service in the UK for Cardiographers (Band 5/6). It ensures high rates of pay because of its capability to provide staff at short notice - often when other staffing agencies are unable to do so. Ambition has a reputation for a fast, high quality service to clients - busy healthcare providers for whom the agency provides staffing solutions every day, 365 days of the year.

Service features for Cardiographers (Band 5/6) include a range of on-line facilities, such as a personal diary that enables staff to notify the agency of availability for shifts. There are also automated alerts, so that temporary staff can be reminded when mandatory registrations fall due.

Ambition 24AHP supports the [NHS careers](http://www.nhs.uk) objectives. Diagnostic radiographers work mainly within the radiology and imaging departments of hospitals (NHS trusts or private sector) but may also work in surgeries/clinics. Therapeutic radiographers are increasingly known as radiotherapy radiographers. They work closely with doctors, nurses, physicists and other members of the oncology team to treat patients with cancer.

Ambition is also recruiting Allied Health Professionals in the following disciplines: Counsellors; Dieticians; Occupational Therapists (Band 6/7) neurology, acute elderly, surgery, community rehab, medicine and stroke, paediatric; Pharmacy technicians, hospital, community; Pharmacists, hospital, community; and Physiotherapists (Band 6/7) cardiothoracic.

Other posts include: care of elderly, community, learning disabilities, mental health, muscular skeletal, neuro, paediatric, orthopaedic, surgery; Psychologists; Radiographers (Band 5/6/7) diagnostic, sonographers, therapeutic, ultrasound; and Speech and Language therapists (Band 6/7) tracheostomies, fluoroscopy, neuroscience, CCU and stroke too.

Group House, 92 - 96 Lind Road, Sutton, SM1 4PL
